

OUR WORLD NETWORK

President's Message

Robert T. Edwards
Co-Founder and President

July 7, 2010

With Summer now underway and family and friends getting together regularly, it's one of the best times of the year for sharing the YouthJuice™ story and for building business momentum. It's especially a great time for expanding the borders of your business as you share your story with others while on vacation.

And now, we've made sharing the business with new prospects even easier and more productive! As you know, our initial order Explosion Pak released on May 1st has literally taken the field by storm. Everyone quickly realized how each aspect of the Explosion Pak helped to teach the new IBO exactly how to retail and recruit, and made their first purchase in the business both profitable and easily duplicable.

So to capitalize on this we are introducing new powerful ways to join Our World.

As of today, the Explosion Pak promotion has ended and reappears in a new and exciting way. There are now three different packs all called Business Packs.

This is a special promotion to make your summer sales soar and it will go from now until the end of September.

In addition to the basic, entry level Business Pack, which we are now calling the Silver Business Pack, we have put together two, additional packs which make it even easier for new IBOs to enter the business based upon their retailing and recruiting requirements. As you will see, the financial incentives built into these packs are truly amazing, and provide the new IBO with a fast track to profits and productivity.

Now, you will have a streamlined way in which to qualify your business prospects and provide them the exact product mix and monthly promotion strategy they desire. Designed specifically to profitably and productively advance IBOs within the compensation plan, you now have the lockstep systems to remove the guesswork and to make your business even more rewarding! These new Business Packs are available now for new sign-ups.

I'm pleased to be unveiling another piece of our long-term Vision today, with the release of our QuickStart Training Program. Drawing from the proven training systems of the industry's top trainers and delivering specific and easy-to-follow techniques, this QuickStart Training Program is designed to be completed with your new IBO within his/her first 30 days in the business.

Broken down in simple chapters covering the basics ¾ developing your prospect list, setting goals and Three-Way Calling ¾ you're also going to learn the Baseball Diamond

This full-color and fully-illustrated booklet is available now as a PDF download. Find this outstanding document and all other updated flyers in the Resources Section of your Online Office. Whether or not you are a new IBO or have been in the business for some time, treat today like the first and take the time to go through the QuickStart Training manual and review the proven steps outlined within it.

What these new releases truly underscore is just how simple our business actually is, and how building a business can be as profitable as you want to make it. I'm delighted with the amazing progress we have made so far this year, the continued stories of success in the business, and the heartwarming testimonials from all over North America about the lives YouthJuice is changing.

Congratulations!

Let's make this summer an even greater success!
